

Dear Prospective Member,

### **“Helping People Today For A Stronger People Tomorrow”**

Please accept this correspondence as a personal invitation to join Project Life Foundation, Inc. PLF Project Life Foundation, Inc. (PLF) was founded in Charleston, South Carolina in 1991 for the purpose of enlightening and empowering our youth. PLF, Inc. is a state registered 501 C-3 non-profit organization. The yearly membership fee is \$25.00.

The mission of the organization is to help all cultures become productive citizens, especially youth and young adults in the minority and underrepresented community. The organization is committed to making a difference in the lives of youths and young adults, and to providing these individuals with the knowledge and guidance needed to be successful in a global and pluralistic society.

#### **Quote by Carter G. Woodson**

“The educational system of a country is worthless unless it [revolutionizes the social order]. Men of scholarship, and prophetic insight, must show us the right way and lead us into light, which is shining brighter and brighter.”

PLF, Inc., has created and implemented a model to teach youth and young adults the importance of Education + Cultural Awareness + Political Awareness = economically successful citizens. Members participate in multiple activities and programs geared to make a change in their lives and the lives of others in the community.

#### **Testimonials**

I am truly blessed to be a part of this organization, and I know that this organization will do wonderful things for the Clemson community and other communities in this country. With the help of God and the loving hearts of everyone in PLF, we will make a difference and we will inspire many young lives. PLF will be a success and has many things in line this year. Thanks Jay for your hard work and your vision in making this organization possible. If we can change the life of one individual then we made a difference, and with that we can go on and change the lives of many through one.

I would like to thank God for introducing me to an organization that will make changes to the lives of African-American youth. So many of our children have fallen into an abysmal sense of who they are. The Project Life Foundation is a group determined to end this domino-effect. We must stay focus! "Injustice anywhere is a threat to justice everywhere."

I am excited to be a part of this organization. This is a great avenue where we could make a difference in communities. I feel that it is a blessing for one to be in a position to reach their goals. That blessing should be used to help others overcome any circumstances that are impeding them from reaching theirs.

I am glad that I can be apart of this wonderful organization that is striving to do so much, to help so many. The foundation of PLF is very solid, and the proven track record of the organization should encourage many more college students, youth, and community members to join also.
